Objectives

Computer Science student seeking a coop training opportunity to apply my skills in software development, machine learning, and geospatial technologies. Eager to gain hands-on experience, contribute to real-world projects, and further develop my technical and problem-solving abilities in a professional environment.

Skills

- Programming: Python, Java, C++
- Web Development: HTML, CSS
- Machine Learning: PyTorch (Basics)
- Tools: Git, QGIS, Flutter
- Soft Skills: Problem-solving, Teamwork, Communication, Strategic Thinking

Education

Bachelor of Computer Science
King Faisal University – Hofuf, Saudi Arabia
Expected Graduation: June 2026

Projects

- Smart Parking Detection System (Graduation Project)
 - Designed and developed a smart parking system to optimize parking space utilization
 - Implemented a Flutter-based mobile application with real-time parking visualization
 - Improved user experience by enabling efficient navigation to nearest available parking spots
- Portfolio Website
 - Designed and developed a personal portfolio website
 - Implemented responsive UI using HTML and CSS

Certifications

- Web Development Bootcamp – Google Developer Student Clubs (GDSC)
 - Completed intensive training in HTML, CSS, and web fundamentals
 - Developed a personal portfolio website as a final project
- PyTorch Basics for Machine Learning – edX
 - Learned fundamentals of machine learning model implementation using PyTorch

Additional Information

Languages: Arabic (Native), English (Fluent)

Interests: Artificial Intelligence, Cybersecurity, Mobile Application Development

Availability: Available for full-time coop training
